

District Pre-Investment Study - 2012

Bahawalnagar

Directorate of Industries, Punjab
Poonch House, Multan Road, Lahore.

Director's Message

After spending past two years in Directorate of Industries, Punjab, I feel very privileged to be writing this message as Director Industries, Punjab.

This is the time we publish the 7th edition of the District Pre-Investment Studies of 36 Districts of Punjab, which has now become synonymous with our commitment to helping Industrialists, new entrepreneurs as well as Researchers. As Director Industries Punjab, I have seen much change, like:

- Relocation plan for the industrial units located within residential areas to industrial estates / positive areas declared by the District Governments.
- Adaptation of Boilers & Pressure Vessels Ordinance 2002.
- Conduct of Census of Manufacturing Industries.
- A scheme "Improvement and Up-gradation of Boilers Inspection Wing" has been approved by the Planning & Development Department, Government of the Punjab with the cost of Rs.10 Million.
- A Scheme "Sports Goods and Material Testing Laboratory" is under process in Planning & Development Department, Government of the Punjab. The estimated cost of the scheme is Rs.450 Million.
- The proposal for Capacity Building of Directorate of Industries Punjab is under process in Industries, Commerce & Investment Department, Government of the Punjab with the estimated cost of Rs.109.75 Million.
- We launch our website www.doi.pitb.gov.pk.

Looking ahead, we are focused on accelerating the execution of growth and promote industrial investment in the province. I am incredibly excited about this and truly believe the best of time for industrial investment is yet to come, Insha Allah.

Preface

Pre-investment studies for the districts in the Punjab were first published by the Directorate of Industries and Mineral Development, Punjab in the year 1979, with the prime objective of providing data which might interest private entrepreneurs and the framers of the Provincial and National Strategies in the industrial sector.

The second, third, fourth, fifth and sixth series of Pre-investment Studies for all districts of Punjab were published in 1983, 1992, 2002, 2006 and 2009 respectively. The present edition is seventh in the series.

This study basically updates the information contained in sixth series of district pre-investment studies. Efforts have been made to provide latest information collected through published sources, offices of the respective Government Departments/Agencies and District Offices of Industries Department. Quality addition of Industrial Policy Framework, recently promulgated Special Economic Zone Act 2012, Strategic Trade Policy Framework (2012-15) and Digital Maps by Urban Unit has improved these studies significantly.

The information has been updated in respect of population, manpower, production of agriculture crops, fruits, vegetables, livestock, forest resources, ores/minerals, infrastructural facilities such as technical/vocational training facilities, communication net-work, sub-soil water quality/effluent disposal

facilities, power/gas supply, tele-communication facilities, industrial estates, dry ports, industrial financing facilities, loaning scheme of PSIC, industrial policy, investment policy, fiscal incentives, Special Economic Zone Act 2012 and Strategic Trade Policy Framework (2012-15) etc. New policy measures regarding declaration of negative and specified positive areas have also been incorporated.

The study also includes information regarding existing industrial pattern, industry wise installed capacities and details regarding existing major industrial units in each district.

Effort has been made to identify various industries considering the availability of raw materials, skilled labour, linkage between industrial units and local/national/international demand. The suggested industries are, however, merely of indicative nature and it is advisable that prospective investors should conduct detailed feasibility report before making final decision for investment.

It is worthwhile to mention that industrial sector in Punjab has grown gradually from 6,223 industrial units in 1975 to 17,857 industrial undertakings in 2010. Sectoral growth has also been registered, resulting in substantial value addition. Value addition chain can be maximized by processing the agricultural industrial waste like rice husk, cotton stock, maize and corn cob. Herbal products is another untapped area. Live Stock, Dairy Development and poultry are fast growing sectors. Processing of food products can fetch handsome dividends. Currently information technology sector is growing by 39% annually in Pakistan. Fashion

industry is also developing rapidly. Similarly, chemical sector has lot to offer by utilizing the available mineral resources as raw material.

Issue of energy shortage can be addressed by dealing with power generation as an industry. Local as well as foreign investors have golden opportunity to set up power generation stations based on coal and other alternate fuels, under the captive power plants policy allowed in the newly promulgated SEZ Act, 2012. Punjab offers very good opportunity to the local as well as foreign investors to set up small, medium and heavy industries in variety of sectors. It has a growing market of over 90 million consumers, abundant manpower / labour force and cheap raw material with reasonably controlled law & order.

The Industries, Commerce & Investment Department has sufficient institutional frame work of attached and autonomous bodies to look after the industrial issues. Directorate of Industries, Small Industries Corporation (PSIC), Board of Investment (PBIT), Punjab Industrial Estates Development and Management Company (PIEDMC), Faisalabad Industrial Estates Development and Management Company (FIEDMC) have blend of professionals from the public as well as private sector. These legal entities are working in close coordination with the Chambers of Commerce and Industries systematically to promote industrialization and trade.

Development schemes regarding establishment of Industrial Resource Centre at the Directorate of Industries, setting up Sports & Material Testing Lab at EPZ, Sambrial and Industrial Safety Institute are under consideration with the Planning and Development

Department. Completion of these schemes will definitely help in promotion of industrialization process with enhanced industrial safety.

I must record my appreciation to Mr. Muhammad Akram Awan, Senior Economist, who effectively planned, coordinated and provided the guidance to his team members for completion of this study. Credit also goes to Mr. Muhammad Jamil Chishty, Staff Economist for his dedicated support rendered in the completion process of this study and Mr. Waseem Haider, Stenographer, for his tireless typing and composition work on computer.

I am grateful to all the District Officers, Enterprise & Investment Promotion who provided the relevant information of their respective districts for incorporating in pre-investment studies. I am also thankful to various Provincial Departments for supplying the required data to the Directorate of Industries. My special thanks are due to Dr. Nasir Javed, Project Director, Urban Unit for the provision of digital maps and the Punjab Printing Press.

Any suggestion for the improvement of the study will be welcomed.

CHAPTER - I

GEOGRAPHICAL CONDITIONS

1.1 BRIEF DESCRIPTION OF THE DISTRICT

The boundaries of District Bahawalnagar in the East and South touch the Indian territory while Bahawalpur district lies on its West and river Sutlej flows on its Northern side across which are situated Okara, Pakpattan, Sahiwal and Vehari districts.

District Bahawalnagar is spread over an area of 8878 square kilometres and comprises the five tehsils of:

- i) Bahawalnagar
- ii) Minchanabad
- iii) Chishtian
- iv) Haroonabad
- v) Fortabbas

1.2 CLIMATE AND GENERAL SOIL CONDITIONS

District Bahawalnagar has a very hot and dry climate in summer. The maximum temperature touches 49.5°C and can go as high as 52°C in tehsil Fortabbas. The climate in winter is very dry and cold. The minimum temperature recorded was 6.3°C. Wind and storms are quite common during

the summer. The average annual rainfall in the district is 119.4 mm.

The district may be divided physiographically into three parts. These are the riverain area, the canal irrigated plain and the desert area.

The riverain area of the district lies close to the Sutlej river which flows in the North-West along its border with Okara, Pakpattan, Sahiwal and Vehari districts. The land in this area is irrigated by non-perennial canals. During the summer monsoons, the area is generally in-undated by the river water. The canal irrigated area is a plain which has been brought under cultivation by the canals. The desert area of the district is called the Cholistan. The surface of this desert consists of a succession of sand dunes, rising in places to a height of a succession of sand dunes, rising in places to a height of 150 metres. It is covered with the vegetation peculiar to the sandy tracts.

Besides the financial institutions mentioned above a number of Leasing Companies, Modaraba

Companies, Investment Banks are also providing financing facilities to the industrial sector. Punjab Small Industries Corporation also extends financial assistance to the small/cottage industrial units.

4.16 SALIENT FEATURES OF LOANING SCHEME OF PSIC

Punjab Small Industries Corporation (PSIC) is a body corporate enacted in 1973. One of core functions of PSIC is financial assistance programme for prospective entrepreneurs, skilled youth, artisans and craftsmen all over the Punjab. The priority sectors are as under:

- Service Industries.
- Agro / Agro Support Industries.
- Food Processing Industries.
- Export Oriented Industries.
- Import Substitution Industries.
- Information Technology (IT) Project.
- Handicraft Industry.
- Women Enterprises.

PSIC started credit assistance programme during 1984 and completed 13 schemes up till now. An amount of Rs. 4079 Million has been disbursed to 19,580 entrepreneurs in 36 Districts of Punjab with the recovery rate of 88% that indicates proper utilization of loans.

The maximum loan limit is Rs.3 Million with debit equity ratio of 60:40. The credit assistance facility available for new projects, BMR and Working Capital. The markup rate varies from 0% to 12%. The repayment period of loan is from 3 years to 6 years with grace period of 3 months to 6 months.

Recently, Government of Punjab has provided an amount of Rs. 2000 Million for disbursement through Service Provider Organization i.e. M/s Akhuwat to un-employed and skilled persons of PVTC, TEVTA, SANATZAR's of Social Welfare Department or other unemployed youth having good business plan.

Up till now, M/s Akhuwat has disbursed an amount of Rs. 1650.00 Million to 94,960 poor household in 33 vocations with average loan size of Rs. 17,382 in Punjab through its 142 offices in 30 districts of the Punjab.

To promote the traditional handicrafts in Punjab, PSIC has also launched dedicated credit assistance schemes for the craftsmen at subsidized markup rates. These craftsmen have also been provided marketing facilities through Pakistan Handicrafts Shops.

4.17 SALIENT FEATURES OF THE SEZ BILL 2012

The Law of SEZ has been made to meet the global challenges of competitiveness to attract FDI. The

Law/bill will allow to create industrial clusters with liberal incentives, infrastructure, investor facilitation services to enhance productivity and reduce cost of doing business for economic development and poverty reduction. The Law further envisages to reduce processes through SEZ in Pakistan. The establishment of SEZs will attract both domestic as well as international investors. The SEZ would play a pivotal role in the economic development of Pakistan as has been witnessed in case of China, Malaysia, Thailand and other states.

It extends to the whole of Pakistan and overrides other laws (anything contrary);

- All SEZ whether Public, Public-Private or Private-Private to be governed under this Act;
- The Board of Approval (BOA) headed by the Prime Minister of Pakistan with the Minister for Finance as the Vice Chairman shall meet as frequently as required but not less than twice a year and decisions shall be taken by a majority of the total membership present and voting;
- SEZs will have exemption from customs duties & taxes for all Capital Goods imported into Pakistan for the development , operations and maintenance of a SEZ;
- Exemption from all taxes on income accruable in relation to the development and operations of the SEZ for a period of ten years, starting

from the date of signing of the Development Agreement.

- Zone Enterprises have exemption from custom duties etc. on imports of Capital Goods;
- Exemption from taxes on income for a period of 10 years starting from the date the Development certifies that the Zone Enterprise has commenced commercial operations in the relevant SEZ;

There is no limit to the economic potential of Pakistan. The challenge is to create the enabling environment in which this can be realized. Special Economic zones bill is a step towards the economic stability in the country.

4.18 STRATEGIC TRADE POLICY FRAME WORK (2012-2015)

The government unveiled on 29 January, 2013 a medium term (2012-2015) Strategic Trade Policy Framework, setting a cumulative export target of \$95 billion for three years. The framework, the second announced by the federal government will be implemented with a funding of Rs. 26.14 billion. In the first year, Rs.5 billion will be spent on providing subsidies and support to identified sectors.

The focus of the policy is on promoting regional trade and regulatory efficiency, promoting agro-processed exports, increasing exports from less

developed regions, revamping export promotion agencies, increasing green exports, enhancing role of women in exports and pursuing product and market development and diversification.

The salient features of the policy include institutional interventions, export development initiatives and regulatory amendments. The policy, offers cash assistance to 14 sectors along with 19 regulatory frameworks, including ban on products as a protective measure against environmental and health hazards. The new framework is designed to provide assistance only to the non-textile sectors.

Institutional Measures: The government will setup institutions like an Export-Import (Exim) Bank, Pakistan Land Port Authority; Leather Export Promotion Council and a Services Trade Development Council.

Export Development: Major initiatives in the Policy included allowing mark-up rate support of two per cent on prevailing LTFF for future import and purchase of machinery. An allocation of Rs.500 million has been proposed for schemes to be implemented this year. The total amount to be spent in three years is projected at Rs.3 billion. A mark-up support of 1.5% will be provided on export finance scheme (EFS) to selected sectors at a cost of Rs. 1.25 billion, including Rs. 200 million in 2012-2013.

The sectors for EFS support are fish and fish preparations, fruit and vegetables, spices, meat and meat preparations, carpets and rugs, sports goods, footwear, leather products, surgical goods, cutlery, onyx products, pharmaceuticals, electric fans, transport equipment, electrical machinery, specialized machinery, furniture, handicrafts and computer-related services.

An amount of Rs.14 billion will be given as adhoc relief at three per cent of FoB to offset the impact of higher cost of utilities for exporters in selected sectors. The measure will cost Rs.3bn this year. An amount of Rs.2 billion-Rs125 million will be allocated for marketing development assistance for regional countries.

A Rs. 25 million allocation has been proposed for export promotion campaigns for agro-processed products; Rs. 400 million for encouraging opening of retail outlets; and Rs.400m for subsidizing 50% cost of plant and machinery for establishing processing plants for meat, fruits, vegetables, dates and olives in Azad Jammu and Kashmir, Baluchistan, Gilgit - Baltistan and Khyber Pakhtunkhwa.

An amount of Rs.30 million will be allocated for upgrading rice inspection laboratories, Rs. 20 million for subsidy at 100% of the prevailing mark-

up rate for establishing mining and processing units in Khyber Pakhtunkhwa and Baluchistan.

Another Rs.20 million has been allocated for strengthening women's chamber of commerce and industry, Rs.32 million for setting up a resource management cell at the ministry of commerce, Rs.28 million for establishing leather export promotion council and Rs.70 million for services export development council.

Regulatory Measures

Unrestricted import of used motorized wheelchairs and five-year-old used or second-hand ambulances has been allowed. Two per cent of export proceeds will be allowed to manufacturers-cum-exporters for duty-free import of accessories for value-addition for leather garments and made-ups. Import of non-hazardous plastic scrap has been allowed for industrial consumers for use as raw material. A ban has been imposed on import of plastic waste, hospital waste, used sewerage pipes and chemical containers.

Import of non-sterilized surgical needles and syringes will be restricted to industrial units, condition of Euro-II may be made applicable on import of all types of specialized vehicles, such as crane-mounted lorries, dump trucks and mixtures lorries. The import of used sprinkle lorries will be restricted to a maximum of five year old. All goods from banned list imported in commercial quality

shall be allowed to re-export at importer/shipping lines cost. The imported substandard goods from the restricted list should be destroyed within a period of six months without offering any release.

Import of waste and scrape of tyres in completely shredded/ cut form will only be allowed to industrial consumers; domestic standards will equally apply to imported goods as well.

Construction engineering and electrical companies will be allowed to retain abroad the exported machinery to carry out work on export-cum-import basis with the condition that they will import the same on the conclusion of the contract against indemnity bond.

All exporters of edible products are to be registered and export of vegetable ghee and cooking oil will be allowed in packaging of up to 25kg to encourage value-addition.

Steps to contain Environmental & Health Hazards

- Ban on import of plastic waste/scrap-hospital waste, used sewerage pipes and chemical containers.
- Restricting import of non-sterilized surgical needles and syringes to industrial units.

- Only the more fuel efficient Euro-II category crane-mounted lorries, dump trucks, mixture lorries, etc, will be imported.
- Imported used tyres will only be allowed for industrial use.

Institutions to be Setup

- Export-Import Bank.
- Pakistan Land Port Authority.
- Leather Export Promotion Council.
- Service Trade Development Council.

CHAPTER - VI

FUTURE INDUSTRIAL POTENTIAL

Keeping in view the availability of raw material, skilled labour, linkage between the industrial units, local / national / international demand, future industrial potential of district Bahawalnagar is discussed hereunder:

It would, however, be kept in mind that though the above mentioned factors facilitate the success of any industrial unit, yet the entire success depends upon the investors / entrepreneurs and the capabilities of the personnel having the managerial control because any of these factors, if lacking is manageable. Therefore, it is advisable that detailed feasibility of industrial projects must be carried out before making final decision for investment.

6.1 AGRICULTURE

Main crops of district Bahawalnagar are wheat, sugarcane, cotton, rice and rape/mustard seeds. The average annual production of wheat, sugarcane, rice and rape/mustard seeds over the period 2008-11 was 996.80, 2347, 130.92 and 10.4 thousand M.Tons respectively and of cotton was 996.49 thousand bales (Chapter-3, Section 3.1).

At present, there are 8 flour mills, one sugar mills, one textile spinning mills and a number of cotton ginning / pressing factories and oil expelling units (Chapter-5).

In view of the availability of raw-materials and existing agro-based industries, there exist good prospects for additional textile spinning/ weaving/ processing, rice husking units and solvent oil extraction unit.

6.2 LIVESTOCK

According to Live Stock and Dairy Development Punjab, the population of Cattle, Buffaloes, Sheep and Goats in the district was 658, 881, 208 and 1099 thousand heads respectively. The annual availability of hides and skins is estimated around 28,4100 pieces.

As regards poultry, there are 335 broiler and 11 layer poultry farms having rearing capacity of 3605 and 25 thousand birds respectively.

Besides, annual availability of sheep wool is estimated around 208 M.Tons (Chapter-3, Section 3.3).

In view of above, there exists potential for milk processing unit, dairy farms, cattle/sheep/goat fattening farm, tannery, leather products,

poultry/animal feed and wool processing/spinning unit, machine made wool carpet units.

6.3 FOREST

District Bahawalnagar is quite rich in forest resources. An area of about 10,714 Acres is under forest (Chapter-3, Section 3.2). The Annual average production of timber over the period 2008-11 was 31.66 thousand cubic meter. Therefore, there exist good prospects for wood seasoning/processing units and modern furniture units.

6.4 INDUSTRY

At present, the major industrial units operating in district Bahawalnagar are a sugar mills and a textile spinning mills. With the development of more textile mills, there will be greater prospects for hosiery, canvas cloth, bed wear.

6.5 DEMAND BASED INDUSTRIES

Bahawalnagar is one of the least industrialized district of Punjab. There exists a lot of potential for small size industrial units which can cater the local requirements of the district and gradually develop industrial base for the large and medium scale industrial projects e.g. Readymade Garments Factory, Modern Workshop for Tractors and other auto-vehicles, Furniture Factory, Straw Board

Manufacturing Units, Polythene Shopping Bags, Bakery Unit, R.C.C Pipes, etc.

6.6 LIST OF IDENTIFIED PROJECTS

As per discussion given in Section 6.1 to 6.5 above, the following industrial projects have been identified in Bahawalnagar district:

- Agriculture Waste / by products raw material based industries for maximization of value addition chain.
- Auto Workshop
- Bed-wear
- Bakery Unit
- Canvas Cloth
- Cattle/Goat/Sheep Fattening Farm
- Dairy Farms
- Energy conservation / efficiency
- Furniture
- Hosiery
- Industrial Alcohol
- Leather Products
- Milk Processing Unit
- Machine Made Wool Carpet Unit
- Particle/Chip Board
- Polypropylene Shopping Bags
- Poultry/Animal Feed Mills
- Power generation through coal and other alternate fuels
- Power generation through bagasse

- R.C.C Pipes
- Rice Husking Units
- Readymade Garments
- Straw Board
- Solvent Oil Extraction Plant
- Tannery
- Textile Spinning/Weaving/Processing
- Waste heat recovery systems
- Wool Processing & Spinning Mills
