## Director's Message

After spending past two years in Directorate of Industries, Punjab, I feel very privileged to be writing this message as Director Industries, Punjab.

This is the time we publish the 7<sup>th</sup> edition of the District Pre-Investment Studies of 36 Districts of Punjab, which has now become synonymous with our commitment to helping Industrialists, new entrepreneurs as well as Researchers. As Director Industries Punjab, I have seen much change, like:

- Relocation plan for the industrial units located within residential areas to industrial estates / positive areas declared by the District Governments.
- Adaptation of Boilers & Pressure Vessels Ordinance 2002.
- Conduct of Census of Manufacturing Industries.
- A scheme "Improvement and Up-gradation of Boilers Inspection Wing" has been approved by the Planning & Development Department, Government of the Punjab with the cost of Rs.10 Million.
- A Scheme "Sports Goods and Material Testing Laboratory" is under process in Planning & Development Department, Government of the Punjab. The estimated cost of the scheme is Rs.450 Million.
- The proposal for Capacity Building of Directorate of Industries Punjab is under process in Industries, Commerce & Investment Department, Government of the Punjab with the estimated cost of Rs.109.75 Million.
- We launch our website [www.doi.pitb.gov.pk](http://www.doi.pitb.gov.pk).

Looking ahead, we are focused on accelerating the execution of growth and promote industrial investment in the province. I am incredibly excited about this and truly believe the best of time for industrial investment is yet to come, Insha Allah.

## Preface

Pre-investment studies for the districts in the Punjab were first published by the Directorate of Industries and Mineral Development, Punjab in the year 1979, with the prime objective of providing data which might interest private entrepreneurs and the framers of the Provincial and National Strategies in the industrial sector.

The second, third, fourth, fifth and sixth series of Pre-investment Studies for all districts of Punjab were published in 1983, 1992, 2002, 2006 and 2009 respectively. The present edition is seventh in the series.

This study basically updates the information contained in sixth series of district pre-investment studies. Efforts have been made to provide latest information collected through published sources, offices of the respective Government Departments/Agencies and District Offices of Industries Department. Quality addition of Industrial Policy Framework, recently promulgated Special Economic Zone Act 2012, Strategic Trade Policy Framework (2012-15) and Digital Maps by Urban Unit has improved these studies significantly.

The information has been updated in respect of population, manpower, production of agriculture crops, fruits, vegetables, livestock, forest resources, ores/minerals, infrastructural facilities such as technical/vocational training facilities, communication net-work, sub-soil water quality/effluent disposal

facilities, power/gas supply, tele-communication facilities, industrial estates, dry ports, industrial financing facilities, loaning scheme of PSIC, industrial policy, investment policy, fiscal incentives, Special Economic Zone Act 2012 and Strategic Trade Policy Framework (2012-15) etc. New policy measures regarding declaration of negative and specified positive areas have also been incorporated.

The study also includes information regarding existing industrial pattern, industry wise installed capacities and details regarding existing major industrial units in each district.

Effort has been made to identify various industries considering the availability of raw materials, skilled labour, linkage between industrial units and local/national/international demand. The suggested industries are, however, merely of indicative nature and it is advisable that prospective investors should conduct detailed feasibility report before making final decision for investment.

It is worthwhile to mention that industrial sector in Punjab has grown gradually from 6,223 industrial units in 1975 to 17,857 industrial undertakings in 2010. Sectoral growth has also been registered, resulting in substantial value addition. Value addition chain can be maximized by processing the agricultural industrial waste like rice husk, cotton stock, maize and corn cob. Herbal products is another untapped area. Live Stock, Dairy Development and poultry are fast growing sectors. Processing of food products can fetch handsome dividends. Currently information technology sector is growing by 39% annually in Pakistan. Fashion

industry is also developing rapidly. Similarly, chemical sector has lot to offer by utilizing the available mineral resources as raw material.

Issue of energy shortage can be addressed by dealing with power generation as an industry. Local as well as foreign investors have golden opportunity to set up power generation stations based on coal and other alternate fuels, under the captive power plants policy allowed in the newly promulgated SEZ Act, 2012. Punjab offers very good opportunity to the local as well as foreign investors to set up small, medium and heavy industries in variety of sectors. It has a growing market of over 90 million consumers, abundant manpower / labour force and cheap raw material with reasonably controlled law & order.

The Industries, Commerce & Investment Department has sufficient institutional frame work of attached and autonomous bodies to look after the industrial issues. Directorate of Industries, Small Industries Corporation (PSIC), Board of Investment (PBIT), Punjab Industrial Estates Development and Management Company (PIEDMC), Faisalabad Industrial Estates Development and Management Company (FIEDMC) have blend of professionals from the public as well as private sector. These legal entities are working in close coordination with the Chambers of Commerce and Industries systematically to promote industrialization and trade.

Development schemes regarding establishment of Industrial Resource Centre at the Directorate of Industries, setting up Sports & Material Testing Lab at EPZ, Sambrial and Industrial Safety Institute are under consideration with the Planning and Development

Department. Completion of these schemes will definitely help in promotion of industrialization process with enhanced industrial safety.

I must record my appreciation to Mr. Muhammad Akram Awan, Senior Economist, who effectively planned, coordinated and provided the guidance to his team members for completion of this study. Credit also goes to Mr. Muhammad Jamil Chishty, Staff Economist for his dedicated support rendered in the completion process of this study and Mr. Waseem Haider, Stenographer, for his tireless typing and composition work on computer.

I am grateful to all the District Officers, Enterprise & Investment Promotion who provided the relevant information of their respective districts for incorporating in pre-investment studies. I am also thankful to various Provincial Departments for supplying the required data to the Directorate of Industries. My special thanks are due to Dr. Nasir Javed, Project Director, Urban Unit for the provision of digital maps and the Punjab Printing Press.

Any suggestion for the improvement of the study will be welcomed.

## **CHAPTER - I**

### **GEOGRAPHICAL CONDITIONS**

#### **1.1 BRIEF DESCRIPTION OF THE DISTRICT**

It is bounded on the North-East by Jammu and Kashmir, on the North-West by the river Jhelum which separates it from Jhelum district, on the East and South-East by the river Chenab, separating it from the districts of Gujranwala and Sialkot, and on the West by Mandi Bahauddin district. District Gujrat is spread over an area of 3,192 square kilometres and comprises of the three tehsils of:

- i) Gujrat
- ii) Kharian
- iii) Sarai Alamgir

#### **1.2 CLIMATE AND GENERAL SOIL CONDITIONS**

This district has moderate climate, which is hot in summer and cold in winter. During Peak Summer, the day temperature shoots up to 45°C, but the hot spells are comparatively shorter due to proximity of Azad Kashmir Mountains. The winter months are very pleasant and the minimum temperature may fall below 2°C. The average rainfall on the Kashmir border is over 100 cm, at Kharian it is 75 cm, at Gujrat 67 cm and at Dinga 50 cm.

To promote the traditional handicrafts in Punjab, PSIC has also launched dedicated credit assistance schemes for the craftsmen at subsidized markup rates. These craftsmen have also been provided marketing facilities through Pakistan Handicrafts Shops.

#### **4.17 SALIENT FEATURES OF THE SEZ BILL 2012**

The Law of SEZ has been made to meet the global challenges of competitiveness to attract FDI. The

Law/bill will allow to create industrial clusters with liberal incentives, infrastructure, investor facilitation services to enhance productivity and reduce cost of doing business for economic development and poverty reduction. The Law further envisages to reduce processes through SEZ in Pakistan. The establishment of SEZs will attract both domestic as well as international investors. The SEZ would play a pivotal role in the economic development of Pakistan as has been witnessed in case of China, Malaysia, Thailand and other states.

It extends to the whole of Pakistan and overrides other laws (anything contrary);

- All SEZ whether Public, Public-Private or Private-Private to be governed under this Act;
- The Board of Approval (BOA) headed by the Prime Minister of Pakistan with the Minister for Finance as the Vice Chairman shall meet as frequently as required but not less than twice a year and decisions shall be taken by a majority of the total membership present and voting;
- SEZs will have exemption from customs duties & taxes for all Capital Goods imported into Pakistan for the development , operations and maintenance of a SEZ;
- Exemption from all taxes on income accruable in relation to the development and operations of the SEZ for a period of ten years, starting

from the date of signing of the Development Agreement.

- Zone Enterprises have exemption from custom duties etc. on imports of Capital Goods;
- Exemption from taxes on income for a period of 10 years starting from the date the Development certifies that the Zone Enterprise has commenced commercial operations in the relevant SEZ;

There is no limit to the economic potential of Pakistan. The challenge is to create the enabling environment in which this can be realized. Special Economic zones bill is a step towards the economic stability in the country.

#### **4.18 STRATEGIC TRADE POLICY FRAME WORK (2012-2015)**

The government unveiled on 29 January, 2013 a medium term (2012-2015) Strategic Trade Policy Framework, setting a cumulative export target of \$95 billion for three years. The framework, the second announced by the federal government will be implemented with a funding of Rs. 26.14 billion. In the first year, Rs.5 billion will be spent on providing subsidies and support to identified sectors.

The focus of the policy is on promoting regional trade and regulatory efficiency, promoting agro-processed exports, increasing exports from less

developed regions, revamping export promotion agencies, increasing green exports, enhancing role of women in exports and pursuing product and market development and diversification.

The salient features of the policy include institutional interventions, export development initiatives and regulatory amendments. The policy, offers cash assistance to 14 sectors along with 19 regulatory frameworks, including ban on products as a protective measure against environmental and health hazards. The new framework is designed to provide assistance only to the non-textile sectors.

***Institutional Measures:*** The government will setup institutions like an Export-Import (Exim) Bank, Pakistan Land Port Authority; Leather Export Promotion Council and a Services Trade Development Council.

***Export Development:*** Major initiatives in the Policy included allowing mark-up rate support of two per cent on prevailing LTFF for future import and purchase of machinery. An allocation of Rs.500 million has been proposed for schemes to be implemented this year. The total amount to be spent in three years is projected at Rs.3 billion. A mark-up support of 1.5% will be provided on export finance scheme (EFS) to selected sectors at a cost of Rs. 1.25 billion, including Rs. 200 million in 2012-2013.

The sectors for EFS support are fish and fish preparations, fruit and vegetables, spices, meat and meat preparations, carpets and rugs, sports goods, footwear, leather products, surgical goods, cutlery, onyx products, pharmaceuticals, electric fans, transport equipment, electrical machinery, specialized machinery, furniture, handicrafts and computer-related services.

An amount of Rs.14 billion will be given as adhoc relief at three per cent of FoB to offset the impact of higher cost of utilities for exporters in selected sectors. The measure will cost Rs.3bn this year. An amount of Rs.2 billion-Rs125 million will be allocated for marketing development assistance for regional countries.

A Rs. 25 million allocation has been proposed for export promotion campaigns for agro-processed products; Rs. 400 million for encouraging opening of retail outlets; and Rs.400m for subsidizing 50% cost of plant and machinery for establishing processing plants for meat, fruits, vegetables, dates and olives in Azad Jammu and Kashmir, Baluchistan, Gilgit - Baltistan and Khyber Pakhtunkhwa.

An amount of Rs.30 million will be allocated for upgrading rice inspection laboratories, Rs. 20 million for subsidy at 100% of the prevailing mark-

up rate for establishing mining and processing units in Khyber Pakhtunkhwa and Baluchistan.

Another Rs.20 million has been allocated for strengthening women's chamber of commerce and industry, Rs.32 million for setting up a resource management cell at the ministry of commerce, Rs.28 million for establishing leather export promotion council and Rs.70 million for services export development council.

### ***Regulatory Measures***

Unrestricted import of used motorized wheelchairs and five-year-old used or second-hand ambulances has been allowed. Two per cent of export proceeds will be allowed to manufacturers-cum-exporters for duty-free import of accessories for value-addition for leather garments and made-ups. Import of non-hazardous plastic scrap has been allowed for industrial consumers for use as raw material. A ban has been imposed on import of plastic waste, hospital waste, used sewerage pipes and chemical containers.

Import of non-sterilized surgical needles and syringes will be restricted to industrial units, condition of Euro-II may be made applicable on import of all types of specialized vehicles, such as crane-mounted lorries, dump trucks and mixtures lorries. The import of used sprinkle lorries will be restricted to a maximum of five year old. All goods from banned list imported in commercial quality

shall be allowed to re-export at importer/shipping lines cost. The imported substandard goods from the restricted list should be destroyed within a period of six months without offering any release.

Import of waste and scrape of tyres in completely shredded/ cut form will only be allowed to industrial consumers; domestic standards will equally apply to imported goods as well.

Construction engineering and electrical companies will be allowed to retain abroad the exported machinery to carry out work on export-cum-import basis with the condition that they will import the same on the conclusion of the contract against indemnity bond.

All exporters of edible products are to be registered and export of vegetable ghee and cooking oil will be allowed in packaging of up to 25kg to encourage value-addition.

### ***Steps to contain Environmental & Health Hazards***

- Ban on import of plastic waste/scrap-hospital waste, used sewerage pipes and chemical containers.
- Restricting import of non-sterilized surgical needles and syringes to industrial units.

- Only the more fuel efficient Euro-II category crane-mounted lorries, dump trucks, mixture lorries, etc, will be imported.
- Imported used tyres will only be allowed for industrial use.

### ***Institutions to be Setup***

- Export-Import Bank.
- Pakistan Land Port Authority.
- Leather Export Promotion Council.
- Service Trade Development Council.

## CHAPTER - VI

### FUTURE INDUSTRIAL POTENTIAL

Keeping in view the availability of raw material, skilled labour, linkage between the industrial units, local / national / international demand, future industrial potential of district Gujrat is discussed hereunder:

It would, however, be kept in mind that though the above mentioned factors facilitate the success of any industrial unit, yet the entire success depends upon the investors / entrepreneurs and the capabilities of the personnel having the managerial control because any of these factors, if lacking is manageable. Therefore, it is advisable that detailed feasibility of industrial projects must be carried out before making final decision for investment.

#### 6.1 AGRICULTURE

Main crops and fruits of district Gujrat are wheat, sugarcane, rice, citrus and guava. Their average annual production over the period 2008-11 was 262.94, 92.23, 83, 337 and 1894.67 thousand M. Tons respectively. A variety of vegetables are also grown in the district (Chapter-3, Section 3.1).

There are 19 flour mills and 41 rice husking units are already operating in the district (Chapter-5).

In view of the availability of raw material and existing agro-based industries, there exists little scope for additional flour mills and rice mills. However, there exists good prospects for rice bran oil, rice husk briquettes, maize products, fruit juice/squashes/pickles, vegetable dehydration.

## **6.2 LIVESTOCK**

According to estimates of Punjab Development Statistics 2011, the population of cattle, buffaloes, sheep and goat was 176, 480, 38 and 239 thousand heads respectively. As regards poultry, there are 279 broilers and 47 layer poultry farms having rearing capacity of 8162 and 500 thousand birds respectively. The annual availability of hides and skins is estimated at 367 thousand pieces. (Chapter-3, Section 3.3).

In Gujrat, there is 9 footwear units (Chapter-5). Therefore, there exists little scope for footwear units. However, there exists good scope for milk processing, dairy products, dairy farms, poultry breeding farm, animal/poultry feed, cattle/goat/sheep fattening farms, leather products, leather garments, etc.

## **6.3 INDUSTRY**

There are some important industries operating in district Gujrat such as auto tyres/tubes, cycle

tyres/ tubes, textile, porcelain, tableware, pottery/ ceramics, electric fans/ motors/ appliances, footwear, etc. (Chapter-5).

In view of the existing industries there exists good prospects for paper/paper board, chip/hard board, electric wire/cables, control meters, capacitors/ resisters, fuse-grips, circuit breakers, plastic electrical accessories, etc.

#### **6.4 DEMAND BASED INDUSTRIES**

In view of the localized requirement and the existing industrial pattern of district Gujrat, there exists a good prospect for biscuit, readymade garments, hosiery, woollen knitwear, industrial gloves, etc.

#### **6.5 LIST OF IDENTIFIED PROJECTS**

In view of discussion given in section 6.1 to 6.4, the following industrial projects have been identified for investment in district Gujrat.

- Agriculture Waste / by products raw material based industries for maximization of value addition chain.
- Animal / Poultry Feed
- Biscuit
- Bakers Yeast
- Breeding Poultry Farm
- Control Meters

- Chip/Hard Board
- Circuit Breakers
- Capacitors / Resistors
